The Age of Empires series has long been synonymous with real time strategy games and as with all real time strategy games, many players choose to play in single player. Some prefer to play, but others enjoy the challenge of multiplayer. With the Age of Empires II: The Conquerors expansion, Age of Empires II The Conquerors brings an additional 5 completely new civilizations to conquer ancient lands, including the Age of The Conquest of the Americas, the Age of The Indian Wars and Age of The Eastern Empires. Age of Empires II: The Conquerors is a standalone stand-alone expansion pack for the RTS game Age of Empires II, released on October 22, 1999. It was published by Microsoft for the Microsoft Windows computer operating system. The game also features multiplayer capabilities through the use of game servers. The game's main feature is the addition of more than thirty new units and nine new buildings, as well as a new game map, Crusades, and campaign mode. There are many references to the original game of the same name, including various minor changes in the in-game map and stat screens. The player is also given additional command of his or her own army in a new tutorial mode, offering four different paths. Notable new features include a Horde Mode, which is similar to the multiplayer game and features characters spawned on the map to defend parts of it, as well as a more detailed tutorial at the start of the game, which provides details on some of the game's new features. The game was a critical and commercial success for Microsoft, with the two expansions, Empires II: World Domination and . Age of Empires II: The Age of Kings, respectively, being released later in the year of 1999. In addition to the release of the game itself, the Game Boy Advance version of Age of Empires II: The Age of Kings was also released. The game sold over four million copies worldwide.
